Metroboard Edge

Metroboard Edge provides the finishing touch to Metroboard's Line, Circle or Square patterns. Metroboard Edge is a bright, white, painted gypsum plasterboard tile which removes the need for cutting through perforations on site.

Metroboard Edge can be used in conjunction with all perforated tiles, to form stunning design patterns and features. Made from the same robust, dense gypsum core as other Metroboard products, with the same edge profiles and dimensions, Metroboard Edge enables seamless transitions to be created, whilst retaining durability.

Metroboard	Grid Panel	Standard Tegular	Fine Tegular
Square	H2100	H2101	H2102
Circle	H2200	H2201	H2202
Line	H2300	H2301	H2302
Edge	H2000	H2001	H2002

SOUND ATTENUATION

34dB Dnc,w in accordance with BS EN ISO 717-1.

PRODUCT WEIGHT

These tiles weigh approximately 8.5kg per m².
